Dear Sir:

Responsive to the Office Action mailed October 22, 2003 applicant requests amendment of the claims and reconsideration of the rejection in view of the following remarks.

Restriction Requirement

Applicant understands that claims 1-5 are withdrawn from consideration. However, as the product claims 1-5 have been amended to be product-by-process claims, i.e. plastic logs produced by the method of claim 6, there remains the possibility of an allowable linking claim. Applicant respectfully requests rejoinder when a linking process claim is found to be allowable.

Certificate of Facsimile Transmission - 4 pages

I hereby certify that this communication is being facsimile transmitted to the USPTO at facsimile number 703-872-9306 on November 9, 2003.
